

MICHELLE CHUNG

Product Engineer | React Native | FastAPI

San Francisco, CA | mchung099@gmail.com | 415-861-9342 | [LinkedIn](#) [Github](#) [Portfolio](#)

SKILLS

Python, TypeScript, JavaScript, SQL | React, React Native, Next.js, Expo, Tailwind
FastAPI, PostgreSQL, Supabase, SQLAlchemy, Alembic | Playwright, Pytest, Selenium, Jest, Redis, Docker, AWS S3
Git, [Fly.io](#), Postman, Figma, Jira

EXPERIENCE

Full Stack Product Engineer - Skin Story

React Native app with FastAPI backend that analyzes skincare ingredients using AI and scraped ingredient safety data

Apr 2025 - Present • [case study](#)

- Built and maintained a cross-platform **React Native (Expo)** mobile app integrated with a **FastAPI** backend.
- Migrated scraping pipeline from **Selenium** to **Playwright**, reducing scrape time by 24% and preventing missing product results.
- Refactored database queries and batched writes to prevent inconsistent UI states and duplicate records.
- Implemented product search with normalization and fallback matching for imperfect user input.
- Added global exception handling and graceful fallbacks to prevent crashes during network or backend failures.
- Debugged mobile behavior across development and production builds using **Expo EAS** and **TestFlight** on devices.

Frontend Engineer - Freelance (Charisse Yeh)

Jul 2024 - Oct 2024 • [github](#)

- Enhanced user onboarding in a **React Native** app by collaborating with a UX/UI designer to implement **Figma** designs, integrating **Firebase** for secure user creation and photo uploads.
- Built a polished onboarding flow using React Navigation and custom components, making sign-up easier for users.

Software Engineering Intern - Dorsal AI

Sept 2023 - Dec 2023

- Developed a **REST API** to retrieve 10-K/10-Q reports from Sec.gov and transcripts, reducing latency in loading performance by 20%.
- Designed an interactive dashboard in **Next.js** with infinite pagination, increasing rendering performance by 35%.
- Created utility functions for financial data processing and display, enhancing code modularity and maintainability.
- Leveraged **Supabase** to store static assets in CDN to reduce server load and improve load times.
- Implemented **TypeScript** for user dashboard features, increasing readability and reducing error handling time.
- Evaluated RAG pipelines (RetrievalQA, Map-Reduce, Stuff) for earnings call analysis, identifying tradeoffs in summarization and guidance extraction quality.

Relationship Banker - Bank of America

Jul 2022 - Nov 2022

- Fostered strategic partnerships by connecting clients with specialized bankers and provided personalized advice based on clients' financial needs, achieving a 20% improvement in client retention rates.

PROJECTS

SEC 10K/10Q Dashboard Refactor | ([Next.js](#), [TanStack Query](#), [TypeScript](#))

[github](#)

- Refactored data fetching with **TanStack Query** and added a service layer for separation of concerns.
- Replaced offset pagination with cursor-based pagination to prevent duplicate records and improve reliability.

Chat PDF | ([Python](#), [Langchain](#), [OpenAI](#), [Streamlit](#))

[live](#) | [github](#)

- Built a PDF Q&A chatbot using RAG with semantic embeddings, vector search, and prompt chaining.

EDUCATION

University of Illinois Urbana-Champaign - B.A. Consumer Economics and Finance, 2021

App Academy - Web Development Bootcamp, Jan 2023 - May 2023
